At Systems Solutions, Your Trusted Partner in Digital Transformation

At Systems Solutions, we are dedicated to being the first choice on your digital transformation journey. Our advanced technological solutions empower companies to navigate the evolving digital landscape with confidence. We collaborate closely with our clients to deliver tailored end-to-end solutions that span user experience, software engineering infrastructure, and digital transformation.

Aligned with Vision 2030 Guided by Saudi Vision 2030, our commitment is to drive efficiency and simplify execution, enabling institutions to achieve their technical aspirations swiftly and effectively. Our focus is on delivering sustainable value that fuels growth, development, and long term success.

Our Role in Building a Prosperous Future We take pride in contributing to a prosperous technological future, aligned with the Kingdom's aspirations and national goals, setting a foundation for a thriving digital economy.

Dear Partners and Valued Clients,

It is my pleasure to welcome you to Systems Solutions. We take pride in leading the way in digital transformation across the Kingdom of Saudi Arabia. In recent years, rapid advancements in technology and innovation have deepened our commitment to providing advanced, comprehensive solutions that empower our clients to adapt to these changes and capitalize on the vast opportunities they bring.

At Systems Solutions, we believe that excellence is achieved through a steadfast commitment to delivering innovative solutions, fostering genuine partnerships, and focusing on every detail that contributes to our clients' success. Inspired by Saudi Vision 2030, we are dedicated to enhancing digital infrastructure and supporting institutions throughout their journey to full digital transformation.

Leadership and Innovation in Digital Transformation

Our vision is to be a leader in providing advanced technology solutions that empower digital transformation and drive excellence across diverse industries Sustainable Leadership Through Innovation.

We are committed to sustainable leadership by fostering a culture of innovation and adhering to global best practices in technology.

Our goal is to deliver effective solutions that meet our clients evolving needs and enhance their work environments for lasting impact Driving Digital Transformation We partner closely with our clients to ensure successful digital transformation at every stage—from strategic planning through implementation—delivering on their goals and supporting their journey toward long-term growth and success.

| Our Mission to Empower Modern Organizations

At Systems Solutions, we are committed to leading digital transformation for organizations that seek to unlock new possibilities and embrace cutting-edge technologies. Our mission extends beyond delivering technical solutions; we aim to serve as a catalyst for innovation, providing customized solutions tailored to the specific needs of each client.

We believe digital transformation is not only about streamlining processes but also about empowering organizations to think differently and elevate their ways of working.

Our goal is to boost our clients' competitiveness in a fast-evolving landscape, helping them meet their operational and strategic objectives. We offer end-to-end solutions in user experience, software engineering infrastructure, and digital transformation—driving productivity and enhancing overall performance.

Our Core Values at Systems Solutions

At Systems Solutions, we are committed to delivering innovative technology solutions that drive our clients' sustainable success. We prioritize building strategic partnerships rooted in transparency and trust, recognizing that excellence is achieved through unwavering dedication and a commitment to innovation.

Professionalism

We maintain the highest standards of quality in everything we do

Transparency

We foster client relationships based on clarity and integrity

Collaboration

We work in close partnership with our clients to achieve shared goals.

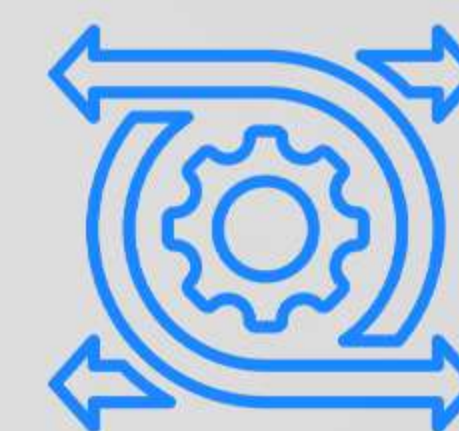

Innovation

We constantly strive to introduce new, advanced ideas and solutions

Security

We ensure the highest standards of data protection and solution security for our clients

Flexibility

We respond swiftly and effectively to changing business needs and requirements

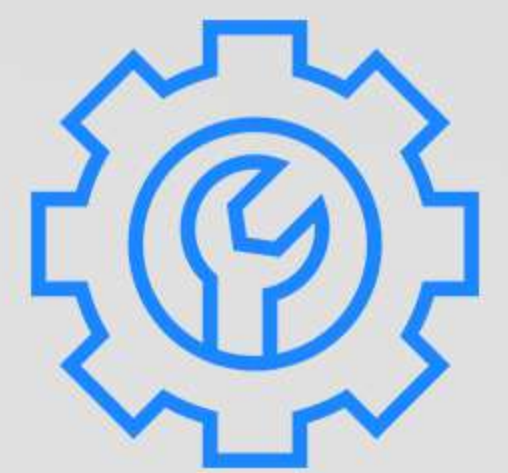

Managed Services

Integrated Services

- Turnkey delivery for private network infrastructure
- Network/system application integration
- Multi-technology carrier-link networks

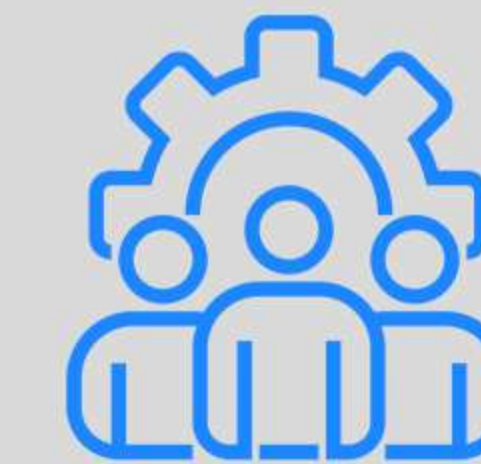

Design and Engineering Services

- Network design
- Network optimization
- Market-based pricing designs
- Product system development

Consulting Services

- Performance benchmarking and standards
- Service automation and IoT
- Network engineering, design, and optimization
- Performance/operations/network reviews
- IT infrastructure planning

Managed Services

- Network management and monitoring
- Full lifecycle management for external networks
- Continuous network optimization and metrics
- Preventive and corrective maintenance
- Technical and field staffing
- Managed Network Operations Center with operations center
- service desk and support 24/7
- SLAs with service access commitments, ensuring rapid response and restoration across the Kingdom

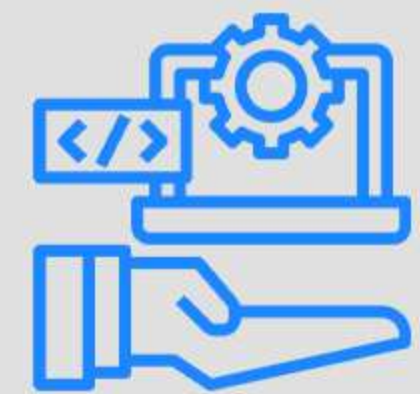

Managed Services

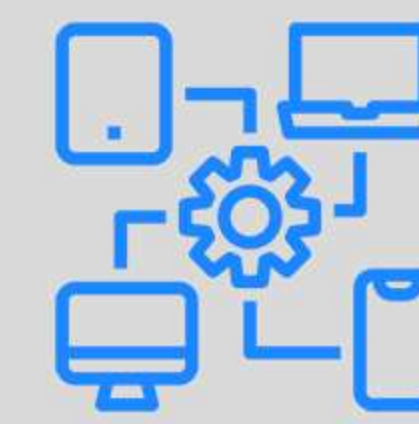

Information Exchange Solutions

- Fiber optic networks: fiber delivery, DSL connections, wide area network
- Wireless networks: mobile, microwave
- Carrier network operations
- In-building solutions
- Power for telecommunications surveying, and cooling solutions
- IoT connectivity

Design Services

- Geographic Information System: GIS
- Fixed networks
- Wireless networks
- Design review and auditing
- As-built surveys and plans

Device Deployment Services

- Network design
- Flexible network link connections
- Network optimization
- Network upgrades
- Network review and auditing
- Network relocation
- Network monitoring patrols
- Skilled resource provisioning

Consulting Services

- IP surveillance and tracking
- Spectrum monitoring
- VSAT equipment
- Alternative energy solutions
- Frequency management
- Data center infrastructure
- Internet bridging

Integrated Technical Solutions

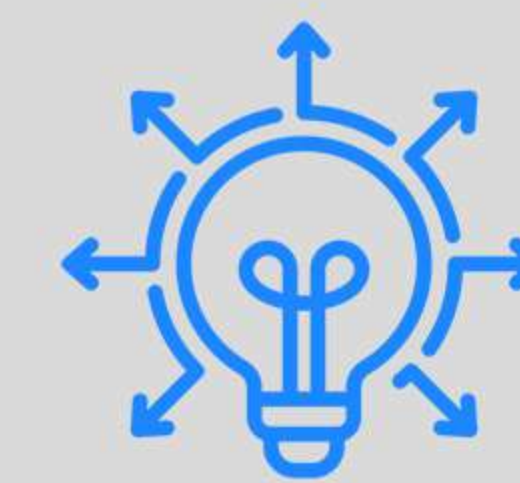

Through our comprehensive technical solutions, we manage and analyze big data across digital platforms, enabling connectivity and integration within infrastructures. This seamless alignment of ideas with execution delivers tailored solutions that meet clients' current needs or innovates products and services to enhance systems.

Our tech solutions focus on the following areas:

1- Customized Product Development

We conduct thorough studies to identify and scientifically analyze the client's specific needs, incorporating advanced technical connections

2- Innovative Product Development

We carry out full-scale studies from concept to creation, developing products based on our forward-looking vision

3- Digital Transformation Applications

We empower our clients to enter the world of intelligent digital transformation, expanding their market reach and creating award-worthy solutions

A Partnership Built on Trust and Quality

We believe that customer loyalty goes beyond mere satisfaction. Loyalty is a sustainable partnership founded on trust, quality, and an ongoing commitment to providing the best technical solutions. It's something invaluable, as we strive to build long-lasting relationships with our clients by delivering exceptional services that exceed their expectations.
